

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicant: Axel Gerlt et al.

Serial No.: 10/541,815

Filed: July 8, 2005

Title: ORGANO-RESISTIVE MEMORY UNIT

Examiner: Bryan E. Wilson Art Unit: 2891

Attorney Docket: 411000-136 Customer No. 27162

SUPPLEMENTAL CORRECTION TO REMARKS
IN AMENDMENT FILED 6/16/08 UNDER 37 CFR 1.111

MS Amendment
Commissioner for Patents
Box 1450
Alexandria, VA 22313-1450

On June 16, 2008, applicants filed a response to the non-final Office Action dated December 18, 2007 having a three month extended time for response set to expire on June 18, 2008. Applicants note that there is a typographical error in applicants' remarks on page 11. Here it is stated:

"This clause, being a whereby clause, merely states the operational result of the structure as claimed. In other words, the unit as claimed performs the stated whereby clause function due to its structure. By embedding the electrolyte in the organo-resistive material, the unit exhibits the noted storage function. This is a correct depiction of the operation of the claimed structure."

This statement has an error and is corrected as follows:

This clause, being a whereby clause, merely states the operational result of the structure as claimed. In other words, the unit as claimed performs the stated whereby clause function due to its structure. By embedding the electrolyte in the organo-resistive material in the electrolyte, the unit exhibits the noted storage function. This is a correct depiction of the

operation of the claimed structure.

The statement should read as corrected above and not as originally presented which is the converse of what was intended, was inadvertant and overlooked.

No fee is believed due for this paper, however, the Commissioner is authorized to charge deposit account 03 0678 any additional fee that may be due or respectively credit this account for any overpayments in connection with this paper.

Date: June 23, 2008

Respectfully submitted,
Axel Gerlt et al.
